

Maths Homework 09.10.2020

For your maths homework this week please complete pages 38-39 (Multiplying numbers up to 4 digits by a 2 digit number) in your Power Maths practice book.

Below is an example of the method we have been using in school.

Look at the columns.

Method 2

	1,235
20	1,235 $\times$ 20
1	1,235 $\times$ 1

I used long multiplication. It was quicker than the grid method.

		1	2	3	5	
$\times$				2	1	
		1	2	3	5	$1 \times 1,235$
	2	4	7	0	0	$20 \times 1,235$
	2	5	9	3	5	$21 \times 1,235$
