

Getting a Coronavirus test done

I need to have a Coronavirus test done. Many other people around the world have had this same test done.

I might get a test because
I have symptoms, or because
it is required for work or school.

Getting a test done makes me
feel nervous. But it will be okay!

Some people go into a clinic or hospital for a test.

Some people go to a drive up testing site.

The person that gives the test will be wearing protective equipment.

They might take my temperature.

I should try to stand or sit still. This will help make the test easier.

To give the test, the nurse will put a swab in one side of my nose.

I can try my best to keep my hands in my lap during the test.

The swab will probably feel a little yucky, but it will be done fast!

I can do it!

After the swab is out of my nose,
the nurse will put it in a container.

Getting a Coronavirus test might
not be fun, but it will keep me
safe. Everyone will be so proud
of me!
