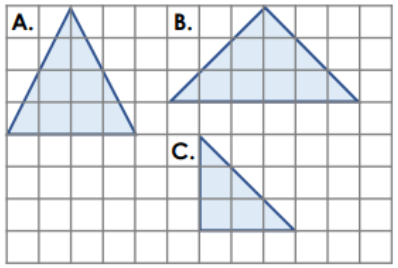
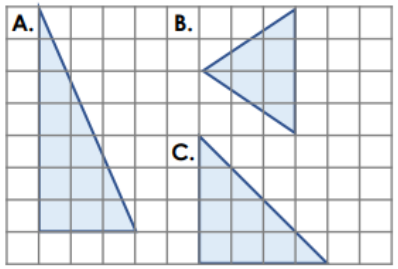
1

4a. Find the area of each triangle by counting the squares, then order them from smallest to largest.



1 square = 1cm²

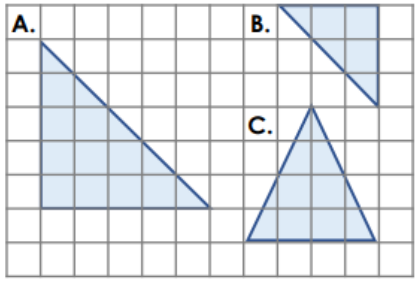
4b. Find the area of each triangle by counting the squares, then order them from largest to smallest.



1 square = 1cm²

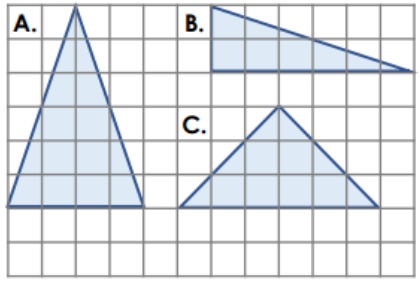
2

6a. Each square equals 1cm². Match each triangle to its area.



12.5cm² 8cm² 4.5cm²

6b. Each square equals 1cm². Match each triangle to its area.

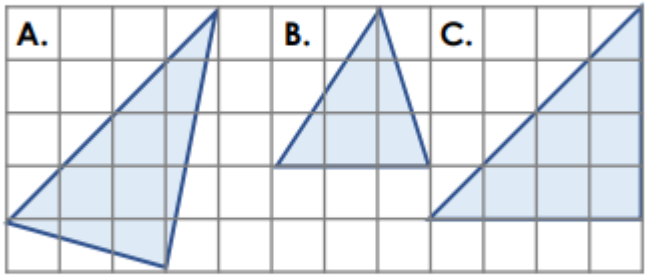


6cm² 12cm² 9cm²

3

5a. Jude has estimated the area of these triangles by counting the squares.

1 square = 1cm²

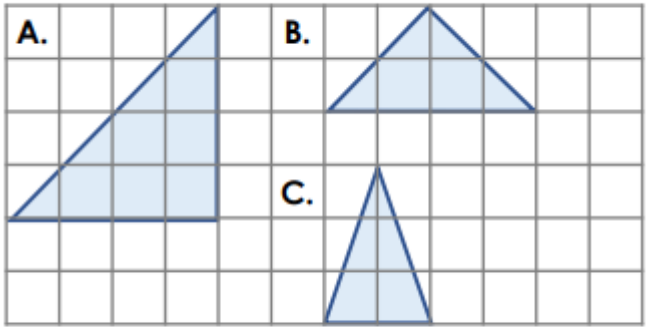


A = 10cm² B = 4.5cm² C = 6cm²

Do you agree with his estimations? Explain why.

4

4a. Here are three triangles. Each square equals 1cm².



Create three questions about the area of the triangles. Remember to include answers.
