

Mission Masters

24.4

Agenda for today's meeting:

- Junior Maths Team
-MM'S to offer maths support
- Brain Break videos-How to launch
- Discuss ideas for attendance video
- Outdoor Learning, how can we further develop?
- Expert Tuition-Social/Emotional skills
- Year 6-Look again at playpod order
- AOB

Discussion points	
Junior Maths Team MM'S to offer maths support	The Mission Masters worked with their focus year group. They supported the children whilst they played TTRS or Numbots.
Brain Break videos-How to launch	Ideas about how to launch brain break videos: -Assembly, ask whole school to take part in a couple of the brain break videos. -Ask classes to do brain break videos at a set time in the day? -Have a launch picnic. -It was discussed that the videos would be less appealing over time and may need refreshing. Mission Masters came up with the idea of a competition. The competition would ask children to create their own brain break videos at home, winners videos would be added to the bank of videos.
Discuss ideas for attendance video	I told the Mission Masters that we had been asked to make a video by Mr Botten which highlights the importance of attendance. We discussed what attendance means. The Mission Masters thought it would be good to talk about the importance of learning. They want to explain that by doing certain learning/skills that they would then be able to get certain jobs. They also want to highlight things that are done at school to support children with worries as they believe that some children may not come to school if they are feeling worried.

Agenda for today's meeting:

- Junior Maths Team
-MM'S to offer maths support
- Brain Break videos-How to launch
- Discuss ideas for attendance video
- Outdoor Learning, how can we further develop?
- Expert Tuition-Social/Emotional skills
- Year 6-Look again at playpod order
- AOB

Outdoor Learning, how can we further develop?	Mission Masters feel that this is something that doesn't happen very often. They suggested that an outdoor day would be good. They asked if we could talk to teachers to ask them to plan in more outdoor lessons, possibly 1 or 2 lessons per week, not including P.E.
Expert Tuition-Social/Emotional skills	We would like to extend out expert tuition to social and emotional skills. The Mission Masters talked about having calming/sensory activities available and time for children to chat to older Mission Masters about any big feelings. We felt that this would work best if the teacher selected one or two children per class dependent on who most needed it that day. We discussed that this could potentially happen during Wednesday assembly.
Year 6-Look again at playpod order	The Year 4/5/6 children looked at the equipment that we have in the playpod and filled in the order form based on what was low in supply.
AOB	When will deputies be meeting? The 2 nd meeting of every term.
Actions Red-me Green-Mission Masters	Chat to Mr Fry about: -Brain Break launch assembly -Outdoor learning -Social/Emotional expert tuition-does Wednesday assembly work? Plan brain break Assembly Plan props needed for attendance video
